Navigation Worksheet
Planning / Log

When Planning:

1 Daytime run in a channel or ICW record every "QF" ATON
2 Nighttime run in a channel record every lighted marker on your side of channel
3 Open water sail use as log and record every course and speed change

When Underway:

1 In open water, record every course & speed change
2 Every hour, on the hour, transfer log data to chart and plot a DR position. If possible obtain a fix

(Format) (0000) **Time**	**Start / WP**	**To / WP / Observation**	(Format) (000 M / T) **Course**	Rule of 5's (Estimated) **Speed**	**Distance**	(Format) (0000) **ETE**	(Format) (0000) **ETA**	Empirical **TE**	**VMG**
